PROFESSIONAL SUMMARY

Final-year BSc (Hons) Management Information Systems undergraduate at KIU University with hands-on QA internship experience at Sri Lanka Telecom PLC, testing web and mobile applications. Experienced in manual testing, test case design, defect reporting and regression testing, and in building automated tests with Playwright (web) and Appium (mobile). Familiar with the SDLC and tools such as Jira, Postman and Zephyr, with a programming background in Java, JavaScript and Python. Strong analytical, teamwork and communication skills, with a keen interest in learning modern testing technologies. Seeking a Junior QA Engineer role to contribute to high-quality, reliable software delivery.

TECHNICAL SKILLS

Test Automation: Playwright, Appium, Selenium, Cucumber

API Testing: Postman, Rest Assured

Performance & Security: JMeter, OWASP ZAP, SonarQube

Test & Defect Management: Jira, Zephyr, BrowserStack

Languages & Databases: Java, JavaScript, Python, C++, C#, HTML, CSS; MySQL, MongoDB

Other: VS Code, IntelliJ, Power BI, Tableau, MS Excel, Trello

WORK EXPERIENCE

Software Quality Assurance Intern

Sri Lanka Telecom PLC (SLT-MOBITEL)

Sep. 2025 - Mar. 2026

MySLT – customer self-service web portal and mobile app

- Wrote and executed test cases for the web portal and the Android/iOS app; logged and tracked defects with clear reproduction steps.
- Built automated regression tests with Playwright (web) and Appium-based scripts (mobile).

eChannelling – online medical appointment booking (web and mobile)

- Tested key user flows including appointment booking and doctor search; documented and tracked defects.
- Automated web test scenarios with Playwright and performed manual testing across the mobile app.
